

# Dispensers

## For Dispensing of Radially-Installed C, E/SE, RE, PO/POL, DE, ME and JE Retaining Rings.

Rotor Clip retaining ring dispensers feature "rail" over which a stack of retaining rings can be slipped. Once in position, they can be "dispensed" one at a time using a retaining ring applicator for ease of installation. Two such models are available to meet your particular dispensing needs:

**Spring Rail (SD)** dispensers are competitively priced and offer significant improvements (like more rail capacity and durable construction) on existing designs.

**The Heavy Duty (D)** is a more permanent version which features replaceable parts and can be permanently affixed to your work station.

### Features:

- Sturdy, Industrial-Quality Construction.
  - Fast, Easy Loading.
  - Accept Tape-Stacked Rings.
  - Precise, Single Ring Ejection.
  - Longer Rail For More Capacity.
- Part and Tool Number Stamped on Dispenser for Fast, Easy Identification of Tool and Corresponding Ring.
- Powder Metal Coating for a Durable, No-Rust Finish (Spring Rail Dispenser, Only.)
