RETURN POLICY
The issuance of a Return Authorization will be considered under the following guidelines:

- All returns must be pre-approved. Failure to comply may result in no credit being issued.
- **All returns must be received in the original Rotor Clip packaging along with a copy of the RMA Verification Report and Bar Code information.**
- Partial Boxes or open bags will only be credited when related to Quality issues. Original labels must be intact for lot traceability. If parts are received having been repackaged, no credit will be issued and parts will be scrapped or returned at the customer’s expense.
- Returned items must be received at Rotor Clip within 30 days of the RMA issuance date or RMA will expire.
- Parts authorized for return must be returned in a single shipment. A copy of the Credit invoice will be supplied upon request. Subsequent returns need additional authorization.
- **Credit will be applied to future orders. No cash payments.**
- When Rotor Clip is found to be in error, Rotor Clip pays freight in and out and no Restocking fee is issued. The return must be sent as specified as in the return package to avoid a chargeback for excessive freight.
- When a Customer related reasoning is determined, Customer pays all freight and the Restocking fee as follows:

<table>
<thead>
<tr>
<th>Days from shipment date</th>
<th>Restocking rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 60</td>
<td>20%</td>
</tr>
<tr>
<td>61 to 180</td>
<td>30%</td>
</tr>
<tr>
<td>over 180 *</td>
<td>At the discretion of returns coordinator (typically 50%)</td>
</tr>
</tbody>
</table>

* Authorization to return parts over the 180 day is at the discretion of the returns coordinator.

**Rotor Clip will inspect product upon receipt. Credit will be issued for items meeting requirements within the Rotor Clip Return Policy only.**

**Rotor Clip Return Policy is subject to change without notice.**

>To present a return request, please contact your inside sales contact
Or call 732-469-7333 for Customer Service
Or by e-mail at: CS@RotorClip.com

Form No. SS136 Rel. (7/01) Rev. (8/14)
Please provide the Returns Coordinator with the Sales Order Number from the Rotor Clip label to process the return.

Please reference the LOT number on the box label (see example above). Lot traceability is necessary to process returns.
